## THIS CATALOG HAS BEEN FORGED SINCE 1886.

We can't be certain on what day back in 1886 George DeArment loaded up his wagon with hand-crafted tools that he had made and set out from Evansburg, PA, to sell his wares. Likely, it was in the spring, after the muddy roads had hardened enough to allow a heavily laden wagon to pass.

But this we do know: what George DeArment put in motion that unnamed first day has not only lasted but prospered for the decades that followed. Through five generations, we owe our success in no small measure to the guiding principles that George would later pen and put into practice:

- 1. Good management is never far from the factory floor.**
- 2. People count more than machines.**
- 3. Bigger does not always mean better.**
- 4. Dedication to excellence is the surest way to surmount adversity and to prosper.**

Channellock, Inc. is a company that has stood the test of time by making tools that do the same. Our tools, our values and our name are built to last.

**Not a bad start. Not too bad at all.**

# Contents

The quality of CHANNELLOCK® tools reflects a tradition of dedication to excellence maintained for well over a century. We are proud of the men and women who carry on this tradition and thus give substance to our pledge...

## Pliers Long Nose

Check out the demo

CHANNELLOCK® Long Nose Pliers are engineered to operate in tight spaces. A crosshatched teeth pattern provides reliable grip in either direction, while a narrow nose profile provides extra precision.

**Crosshatch Pattern On Jaws**  
Grips work tightly

**Precision Machined Knife And Anvil Style Cutting Edges**  
Ensures perfect mating and superior cutting edge life.

**High Carbon Steel**  
For superior performance and specially coated for ultimate rust prevention

**Laser Heat-Treated**  
For longer lasting cutting edges

**CHANNELLOCK BLUE® grips**  
For comfort
