REGRIND PRICE LIST

- Regrinding
- PVD Coating
- Carbide & HSS Specials

suttontools
world class cutting tools

Regrinding Service - Reduce your production costs

Sutton Tools continue to reinvest to provide a 'complete' range in cutting tool products and services. Our regrinding service returns tools to 'as new' condition. Quality is guaranteed from the CNC grinding machines which are operated by highly experienced personnel, using advanced technology. A full regrinding facility is offered on site. HSS and carbide can be reconditioned by our highly experienced personnel with reproducible, high quality results every time.

We regrind HSS Powdered Metallurgy and grades of Solid Carbide, complemented by fifth generation thin film coatings.

This product listing represents commonly requested items. We also manufacture carbide, HSS and specials for general, automotive and aerospace applications. We can also advise the best solution for the materials you machine.

Sutton Tools Coating Service (Surface Technology Coatings)

We are Australia's only company providing a combined regrind, coating, nitriding and heat treatment service to industry with ultra-hard thin film coatings based on Physical Vapour Deposition (PVD) technology. Using world-leading technology, coatings are available to solve a wide range of problems relating to friction and wear, thereby improving tool performance and increasing tool life up to 300-1000% compared to uncoated.

Research & Development

The variety of state of the art equipment including CNC tool and cutter grinders, drag finishing machines, PVD coatings and CNC wet blasters, enables us to regrind a tool, edge prepare, recoat and post-polish. We continue to develop and test all these processes to provide our customers with best solutions to their metal removal needs.

Free Pick Up & Delivery Service

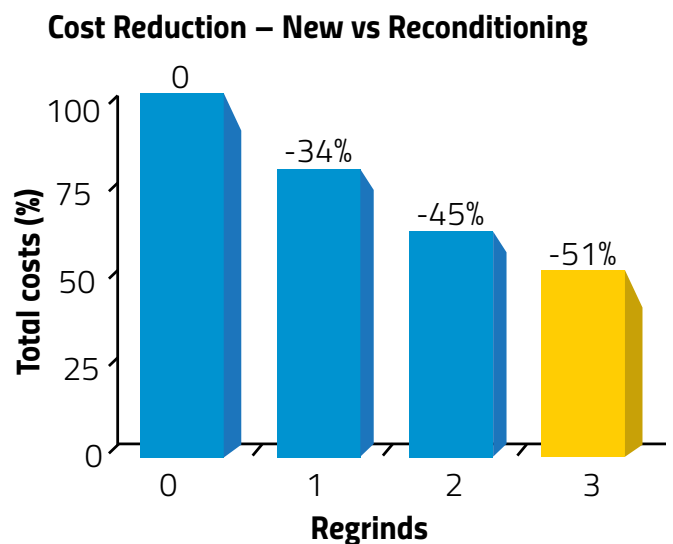

Our highly skilled staff are dedicated to customer service to ensure delivery and quality commitments are fulfilled which includes a free pick up & delivery service for orders over \$150*. For any orders less than \$150*, a \$10* handling fee will apply each way.

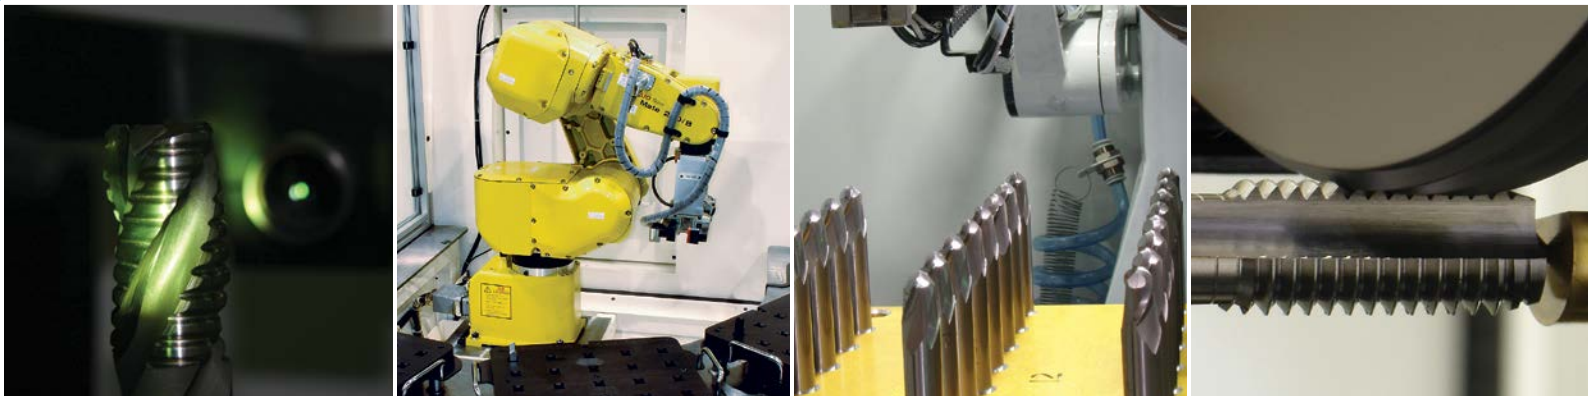

*All prices exclude gst.

Case Study – Cost benefits of reconditioning our drills

Example: D332 10mm 5xD IK R30N Carbide Drill, AlCrN coated.

SURFACE TECHNOLOGY COATINGS

THE ONLY FACILITY IN AUSTRALIA THAT HAS IT ALL

Surface Technology Coatings (STC) is the only commercial facility in Australia established in 1988 offering high pressure quench vacuum heat treatment, plasma nitriding and PVD hard thin film coatings all on the one site.

Surface Technology Coatings Services:

Vacuum Heat Treatment

STC has a state of the art Abar-Ipsen Turbo Treater vacuum heat treatment furnace. It features high pressure 12-bar gas quenching and convection assisted heating, using patented Abar-Ipsen flapper nozzles, thereby providing a high level of temperature uniformity.

NitroPlas Plasma Nitriding

This revolutionary process generates a plasma on a cage surrounding the entire workload in a vacuum furnace in order to generate active nitrogen. The end result is a product with high surface hardness, excellent fatigue resistance, low surface friction and good anti-corrosion properties.

PVD Hard Thin Film Coatings

STC produce the highest quality, world class PVD coatings including:

- TiN
- TiCN
- CrN
- TiAlN
- AlCrN
- AlTiN
- TiAlN+AlCr_xN
- Steam Oxide

Applications including:

- Cutting Tools
- Inserts
- Blades
- Slitting Saws
- Punches
- Injector Pins
- Die Moulds
- Decorative Pieces
